

NOTHING EXCITES US
AS MUCH AS
A GOOD INGREDIENT...

Ambë

...and therefore, we handpick only the best of the nature to bring you ingredients that have applications in Pharmaceuticals, Nutraceuticals, Cosmetics, Ayurveda and Food.

For over 14 years, Ambe Phytoextracts has been manufacturing and exporting a wide range of standardized and proprietary ingredients – all natural, which find their way into countless medicines, supplements and food products across the globe.

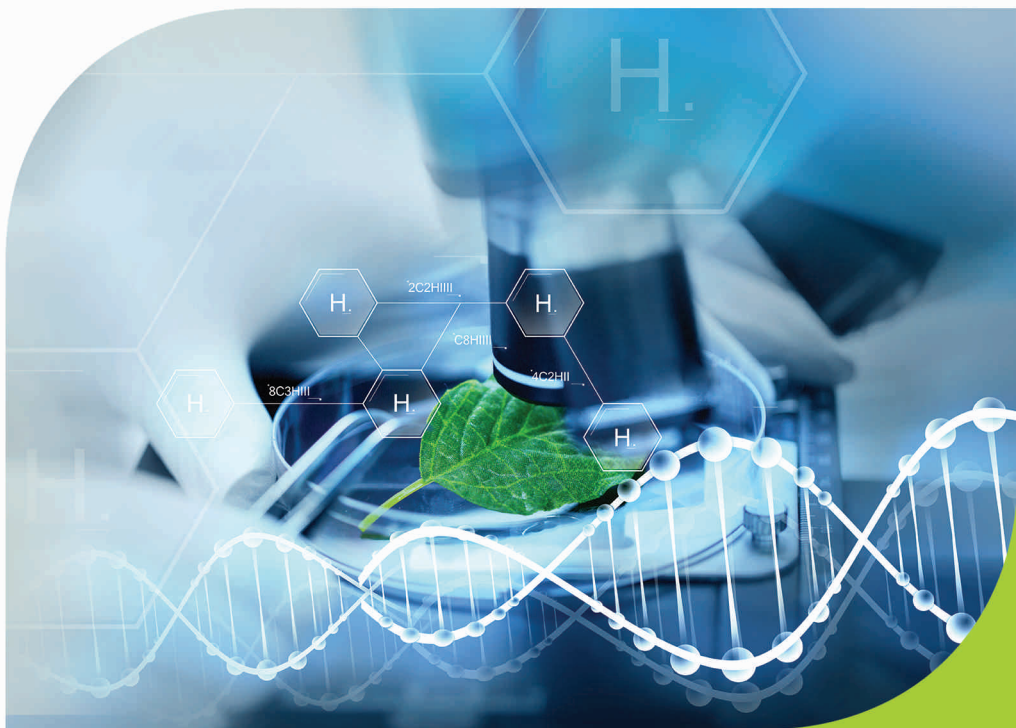

RESEARCH & DEVELOPMENT

Nestled in the pristine environs of Himalayas, our inhouse R&D facilities provides our team of scientists with ample tools and inspiration to create formulations and products that improve quality of life of the end user. Our DSIR approved labs are equipped with HPLC with PDA, RI & FLD, GC- MSMS, GC-HS with FID, to name a few.

QUALITY

The only serious part about our work (besides customer satisfaction, of course)! Our products are certified for purity, microbial, heavy metal & pesticide limits. They are non-GMO, non-irradiated and comply with all major international standards for safety and purity.

TURNING IDEAS **INTO PRODUCTS**

We don't just manufacture ingredients, but provide end to end services for our clients including:

Formulation development | Product development | Regulatory | Private Label | Contract Manufacturing

Our state-of -the-art manufacturing units, spread over a combined area of more than 2,00,000 sq.ft., have the requisite infrastructure and compliance to create retail ready product of impeccable quality in the required dosage form. Our confidence in our services is backed by the trust bestowed by some of the leading brands on us.

BRANDED INGREDIENTS

Our branded ingredients include a range of formulations that have been designed and produced in-house and come with the assurance of clinical testing. These ingredients not only match but often supersede similar ingredients available in the market, thus, providing excellent value to our esteemed customers.

Bio-Immune™

A highly bioavailable & water-soluble inclusion complex of Natural Andrographolide (AG)

- 99.91% in-vitro inhibition of SARS –CoV-2 virus replication
- Safe for both Oral & Pulmonary delivery formulation
